

# CHALLENGES IN THE CONTRACT MANAGEMENT PROCESS

The contract management process has never been an easy job. It has its risks and potential threats that impact the smooth operating of firms. But it does not have to be a painful process.

So what can we do to meet these contract lifecycle management challenges? You guessed it: **technology is the answer**. Recent technological developments like artificial intelligence (AI) are now helping companies overcome numerous challenges of contracting. As your business progresses digitally, automated contract software can simplify processes and provide the framework to streamline contract management and provide fact-based decision-making.
